## Keeping Children Healthy - A guide for parents

### Is your child transitioning to P1?

Unlike preschool where your child is served meals based on a fixed menu, they will have to start making more independent choices about what they want to eat in primary school.

This transition from being served to choosing for themselves can be daunting for children. Prepare them for it in the following ways:

- Talk to your child about 'My Healthy Plate' and highlight the importance of different food groups in our diet. Teach them how to choose a combination of dishes using the 'quarter-quarter-half' method so they learn to incorporate all food groups in their meals.

Here is an example of a meal that is not well-balanced, and a couple that are:

Aligned with the school's vision and philosophy that every child is a leader, it is our school's mission to nurture every child to lead their lives responsibly and to contribute with joy.

The 7 Habits of Highly Effective People is adopted as our tool to inculcate values and instill leadership skills in our students. In addition to 7 Habits, the school has Values in Action (VIA) and a whole-school leadership development weaved into our Character and Citizenship Education (CCE) curriculum. Students are given opportunities to apply their leadership in various platforms.
