

FLATS IN MY NEIGHBOURHOOD

An ART activity
by Ms Sara Leo
MK@Horizon

1.

Construction Papers

Any colour

2.

Glue stick

3.

Scissors

Use scissors with supervision or use a pair of child-size scissors

4.

Markers

PREPARING SHAPES CUT-OUTS

Help your child cut out basic shapes such as squares, rectangles, circles and triangles with a pair of scissors.

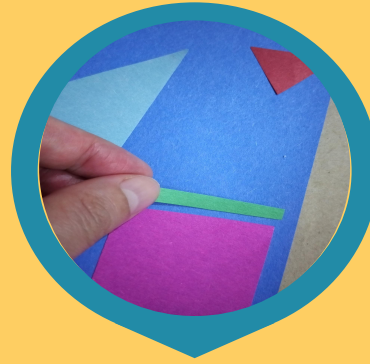

Let's assemble your shapes! 😊

●
**Apply glue
at the back
of cut-out
shapes**

●
**Paste the
shapes on a
coloured
background**

●
**Embellish
with small
strips of
paper or
triangles**

●
**You can make a "road"
with a long black strip
of paper and small
white rectangles**

The last step...

Decorate your “flats” by drawing windows, lines or squares with your coloured markers 😊

Ta-da! 🎉 There you go! You have created your very own flats in your neighbourhood!

THANKS!

We hope you had fun making these crafts together with your child. We'll see you again soon!
